### PATCHWORK AN ANCIENT ART

Had Its Origin Many Ages Age but New is Distinctly An Amer ican Institution

The idea that patchwork had tto origin in America is not founded on fact. A tl. sand years before the Christian era a queen of Egypt went Lutesville. down the Nile to her last resting place under a wonderful canopy of skins that were dyed and pieced to gether in a mosaic pattern. Years be fore this work had reached perfection and acquired a definite place among the arts. Then, too, patchwork quilts were made in England to the Eight eenth century, as witness the lines written by Cowper to a Mrs. King opon receipt of "A kind present of a patchwork quilt of her own making Patchwork is distinctly as Ameri-

No objection was made to this course, and then there was another request.

Would you mind writing for me?" said the customer. "I have hurt my arm Just write Please give Robert \$1,000, and sign it 'Heart.'

Bishop's Busy Day.

Discarding his horse and buggy Bishop Abram Herr of New Danville, Lancaster county, found it necessary to procure the service of an automobile in order to marry five pairs who lived in different sections of the county, according to a correspondent of the Philadelphia Record Bishop Herr is a minister of the Mennonite aith, and the weddings were so scheduled that he scarcely had the tme to eat a morrel of food at the big feasts that always follow a counry wedding

He married the first pair at his home and then jumped into the auto and was driven to Salunga, where he performed another wedding ceremony From there the marrying parson was whisked to East Lampeter township, where two pairs were married. He solemnized the last wedding in the evening at Mountville

Treasure Added to Art World. The lost Velasquez, discovered lately to the Castle of Schwartzau, near Steinfeld, Austria, has been identified as the Fraga portrait, painted in 1644, which it had been supposed had perished. It is now in London, where it is to be exhibited shortly at the rooms of the Agnews, who bought it. The Times of London says of it.

"It is a marvel of portraiture and s marvel of color and, absolutely, untouched as it is, it shows at every point the unmistakable hand of Velasquer himself. . . When this has been done (relining and varnishing) this portrait of Philip IV will impress all who see it as being one of the most complete and also one of the mo tractive of the pictures left to the world by the founder of modern p
